International solutions for your clients

Since 1947, Clements International has specialized in the insurance needs of expatriates and their families. We now offer agents and brokers access to our complete range of commercial and personal insurance products.

Specialty Markets

Stop wasting valuable prospecting time shopping multiple markets and chasing down underwriters — our niche focus is your best asset. As a broker and MGA, we offer you and your clients the best selection of our global insurance solutions.

Globalization

The Department of State estimates over 4 million Americans live outside the United States, an amount greater than the populations of 25 states. Don't lose your client to a provider with access to international markets, Clements can give you the competitive edge.

Claims

We are dedicated to providing quick, hassle-free claims service. Turn around time averages one week from full receipt of documentation.

Service

Our broker network has a dedicated service team that is available to answer all of your questions and inquiries. This single point of contact streamlines your ability to manage your clients' accounts.

Sign up

Joining our network is easy. Whether you have a one-time risk, or are interested in offering international products permanently — we are happy to work with you. As a Clements broker you will have access to our automatic quote system with data storage and online payment options.
